

DESCRIPTION

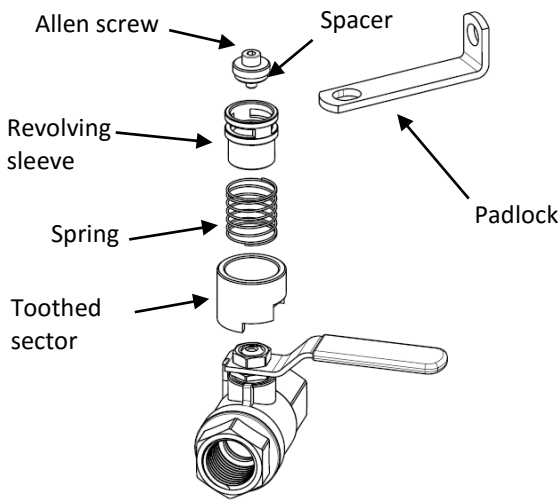

**G058P**

Lockable device for closed position for steel lever.

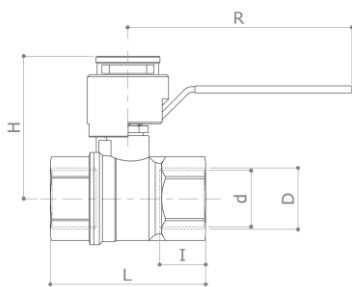

The G058P locking device prevents unauthorized openings. The locking device is attached over the stem and handle. It is hold in place with an Allen screw that is screwed into the center of the stem. With the padlock in place, the Allen screw is not accessible, making the valve tamper proof. It can fit on every 51, 51CE, G51 or G61 series ball valve.
